**THE AFRICAN
SWINE FEVER
VIRUS
KILLS PIGS**

The African Swine Fever Virus (ASFV) is a highly contagious disease in pigs and wild boar. There is no vaccine for this disease. It poses no risk to human health, however, it can cause severe agricultural economic loss.

Travellers
do not spread
this disease!

TAKE PRECAUTIONS

**ARE YOU RETURNING
FROM A TRIP
ABROAD?**

**VIA CAR, COACH,
PLANE OR BOAT?**

Do not transport pigs or pork products.
If you do, you must declare it
to the relevant transport authorities.

Be sure to dispose of any food leftovers
in suitable, closed bins.

Do not visit a pig farm
unless absolutely necessary.
