

Veille-Alimentation

CENTRE D'ÉTUDES
ET DE PROSPECTIVE

Mars 2017

Bonjour,

Veuillez trouver ci-dessous la nouvelle sélection du Centre d'études et de prospective du ministère de l'Agriculture, de l'Agroalimentaire et de la Forêt (<http://veillecep.fr/>) sur les sujets « Alimentation ». Ce document liste un ensemble de références de sources diverses, identifiées au cours de l'activité de veille du CEP et réparties par grandes thématiques.

NB : La veille du CEP est une activité de sélection d'informations extérieures au ministère, réalisée à partir d'un corpus d'environ 300 sources de différentes natures (médias, institutions nationales et internationales, think tanks, instituts de recherche, etc.). Il ne s'agit pas de productions du ministère et les informations sélectionnées ne présentent pas la position officielle de celui-ci.

Julia Gassie
Chargée de mission Veille et Alimentation
Centre d'études et de prospective

Parmi les publications identifiées de février à mars 2017, on peut notamment retenir le [rapport](#) de la FAO sur le développement de nouvelles formes de malnutrition en Europe et en Asie centrale. Par ailleurs, l'Ademe a [présenté](#) l'outil ACYVIA, destiné aux professionnels de l'agroalimentaire pour appuyer l'écoconception des produits. Enfin, plusieurs enquêtes viennent éclairer les attentes des consommateurs, en France (« [Pratiques alimentaires d'aujourd'hui et de demain](#) », « [Près d'1 Français sur 4 est localiste](#) »), comme en [Australie](#).

Index des thématiques

Comportements alimentaires.....	2
Consommation, Consommateurs.....	3
Durabilité, Gaspillage.....	4
IAA, Distribution, Restauration, Artisanat.....	5
Innovation, Recherche, Numérique.....	7
International.....	8
Nutrition, Santé, Sanitaire.....	9
Politiques publiques.....	11
Sécurité alimentaire, Systèmes alimentaires, Aide alimentaire.....	11

Comportements alimentaires
